**RE: Your open case with the NJDEP**

Dear Sir or Madam:

Did you know that listings on the known contaminated site list for your property can be closed and taken off the List in as little as 6 to 12 months? Once the cleanup work is complete, I can issue paperwork which removes your property from the list and provide banks and buyers with the necessary clearance to complete transactions. My name is David Hoffman and I am a Licensed Site Remediation Professional, or "LSRP". For 20+ years I have been cleaning up contaminated sites in NJ. I can help you finish the clean up of your site.

### **Got Environmental Problems?**

\*Soil Contamination\*Groundwater Contamination\*Remediation Services\*  
\*Expert Testimony/Litigation Support\*Underground Storage Tank Closure\*  
\*Indoor Air Quality/Vapor Intrusion Testing\*Insurance Cost Recovery\*ISRA\*  
\*Tank Removal\*PA/SI\*Phase 1\*Phase 2\*

### **We've Got Solutions!**

And even better, NOW I've finally answered the question, "where will we get the money to do this"

Your current consultant may have helped you in the past; however, it never hurts to get a second opinion.

I would be happy to discuss your site issues over the phone, or, in person and without charge. Ask for extension 100 to speak to me directly

Sincerely,

*David Hoffman*

Licensed Site Remediation Professional #510483

*Ps. I can get you **MONEY** to do your clean up. I can get you your **MONEY BACK**. Not a State program. I have a proven track record of recovering money for remediation/clean-up costs. Ask me about it.*
